LUMENO 3528 LED CRISTAL STRIPS
led flexible strips for background illumination

FEATURES :

- 5 m reel
- 300 LED - 3528 SMD
- High Brightness - 7-8 LM LED
- 12V DC, 24 Watt Max
- Heat-resistant PU cover
- Waterproof - IP 65
- Self-adhesive back - 3M tape
- Multiple colours available

RoHS COMPLIANT   CE   warranty 3 years

Technical Data :

Model	LM-ST3528
Power	24W
LED Qty	300 (60/m)
LED Type	SMD 3528 EPISTAR
Lumens	*2400 LM
Input	12V DC 2A
PF	>0.90
Range	±0.5 m
Lifespan	>35K hrs
Material	Flexible 8mm PCB & PU Glue
IP Rating	IP65
Size	5000 x 8 x 3 mm
Environment	-20 - 40 °C

Colours Available :

○ Cool white 6000K-7000K   ○ Warm white 3000K-3300K   ● Red   ● Green   ● Blue   ● Yellow   ● Amber

*cool white

Description :

Lumeno LED Cristal Strips are a modern, eco friendly background illumination lights. LED Strip can be used in a vast range of applications, from professional advertising solutions to general - domestic, decorative lighting. Cristal strips are ideal for replacing fluorescent tubes in cove lighting, sign lighting, under counter lighting and any other in-direct-light applications. Supplied with 3M self adhesive tape at the back, LED strip lights are easy to install and maintenance free.

Lumeno Cristal LED Strips are made using high brightness 3528 SMD LEDS and high quality white PCB. LEDs are divided into 3 units / 50mm circuits for precise installation. Each section/circuit is marked on the surface of strip with a visible cutting mark, and large copper contact points (DC +/-) for rejoining (or soldering).

To make the installation easier, a selection of plugs and connectors is also available. For professional/commercial installations a proper LEAD-FREE soldering is recommended to assure solid and lasting connections between cut lengths is provided. Each length of strips requires 2A (12V) current, for maximum light output.

Ordering codes :

LM - ST3528 X
X - colour (CW - cool white, WW- warm white, B - blue, G - green,
R - red, Y - Yellow, A - Amber)
