

atc Pacific Heated Towel Radiators

For Bathrooms and Kitchens

atc Pacific Electric Towel Radiators are modern in design and aesthetically pleasing to the eye. Manufactured with carbon steel ensuring product longevity and high quality.

Manufacturing Process

- Manufactured with low carbon steel ensuring product longevity
- Water is mixed with Korrodex 8840 fluid to prevent internal corrosion, rust and is frost resistant to -35°C

Quality and Warranty

- Towel Radiators manufactured in Europe
- All Chrome Towel Radiators are hand polished ensuring state of the art galvanic coating
- Each Towel Radiator is 100% leak tested
- 5 Year Long Life Warranty on each Towel Radiator
- Manufactured to EN 10305-5

Ease of Installation

- Towel Radiators are easy and quick to install
- Towel Radiators are already fitted with electric pre-wired element
- Element maintains a constant 65°C and is protected by a temperature sensor
- Element suitable for connection to an external timer or intelligent building systems

Stylish. Any Colour You Want

- ATC Towel Radiators are available in Chrome or White as standard in five sizes
- White and Painted finish radiators will gain 30% higher output compared to Chrome plate finished radiators.
- We can offer any colour Towel Radiator to suit your application or project (allow five weeks lead time)
- RAL Colour Chart on page 73.
